## American Shorthorn Association

*C. A. Swaffar*

HECKLAND ROYAL PRINCESS — Out of a good "AA" cow that was reserve champion at three county fairs in 1961. From a dandy producer, this heifer should make a good cow.

What is a good Shorthorn commercial bull worth? Those of you who have had experience with Shorthorns know their superior profit making ability and have a figure in mind. For those of you who have not had experience with Shorthorns, we cite this story . . .

Ray Holder, Harrisonville, Mo., used a Shorthorn bull on 20 cows of another beef breed. He used a bull of the same breed as the cows on 20 others.

Nineteen crossbred calves resulted. These were developed the same way and on the same feed as his straight-bred calves. At the end of eight months, when sold, the crossbreds averaged 189 lbs. a head more than the straightbreds and sold for the same price. The heifers sold for \$20.00 per cwt. and the steers for \$23.00.

A little arithmetic shows that the Shorthorn bull added \$43.47 to the value of every steer calf and \$37.80 to each heifer calf. If ten of these were steers and nine heifers, the added return from using a Shorthorn bull was \$774.90 on just one calf crop of 19 head.

Good Shorthorn bulls will make you money. We have the profit-making kind in this sale.

This portion of the Western Shorthorn Commercial Sale will be managed by members of the Western Junior Shorthorn Association.

**WHY USE SHORTHORN BULLS?**

John Catron, Camp Crook, South Dakota, turned a Shorthorn, a Polled Hereford, and an Angus bull with 120 cows. One hundred calves resulted. Catron did not guess — he weighed the calves.

**THE BOX SCORE**

Sire	No. Calves	Av. Weining Weight	Total Pounds
Shorthorn .....	47	330 lbs.	15,510
Hereford .....	34	306 lbs.	10,404
Angus .....	24	313 lbs.	7,512

John Catron, just like you, Mr. Cattleman, was interested in production of total pounds of quality meat. That's why he now is convinced of the advantage and reliability of Shorthorns. You, too, can harvest this kind of a crop by using Shorthorns.

- A. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.
- B. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
- C. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age, shall not be served by a heavy or old bull. The expense of a freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.
- E. In the event an animal is returned by the buyer to the seller as a non-breeder the buyer must furnish to the seller a veterinarian's certificate showing that his herd is healthy if such a certificate is required by the seller.
